2) On the maps provided highlight the following:

a) Show where you think there are opportunities for community improvements or redevelopment (e.g. building sites and open spaces). Why are these sites and areas important?

b) Highlight your community's landmark sites such as heritage buildings, event areas, natural features or areas where the character and style of the existing buildings should be protected and enhanced. These can also be park areas and open space.

c) What land-uses are vital in your community and what uses are missing (e.g. retail, cultural, institutional, etc.)? Are there existing land uses that no longer belong?

Topic 2: New Buildings

3) What are your 3 goals for the design of new buildings in your community?
e.g. energy efficiency, appropriate building heights, appropriate locations, transit supportive, etc.

1.

2.

3.

4) What should new buildings look like along the major roads, in existing neighbourhoods and on under developed lands? Consider elements like building heights and shapes, height transitions, building materials, terraces, ground floor treatments, the building fabric, etc.

5) Should there be a difference between buildings on the north side of Lakeshore Road versus the south side of Lakeshore Road?

Topic 3: Improved Streets and Open Space

6) What are your 3 goals for improved streets and open space in your community? e.g. improved biking trails, pedestrian friendly streetscapes, parks and open space etc.

1.

2.

3.

7) Where would you like to see new open spaces and streetscape improvements?

8) What kind of elements would you like to see in the streets and parks? e.g. signage, public art, patios, streetscape furnishings, etc.
